

## Two To View - A Couple Of Amazing Videos You Don't Want To Miss

### **Bringing Rembrandt Back to Life**

This portrait was created on an advanced 3D printer, guided by extensive data from all of Rembrandt's 346 paintings using facial recognition algorithms.

### **Look, Don't Touch**

Everyone knows not to touch museum displays. Well ... almost everyone. Watch the disastrous results when a man examines a hanging clock a little too closely.

## NCK WiFi Debuts For The Bike Across Kansas And Belleville Car Show

Bicyclists stopping at checkpoints at Mankato and Belleville had the unique opportunity to have their own wifi internet access to check in with family and friends and to send pictures of their adventure. A partnership of NCKCN and Cunningham Telephone & Cable made this possible by setting up its new *NCK WiFi* equipment at the checkpoint locations in Cunningham's service area.

*NCK WiFi* was also set up for the Belleville Car Show. Guests were able to take pictures of their favorite cars and send to their friends via the wifi internet access.

Both events were a huge success and a great test of the new capabilities of the *NCK WiFi* service. Stay tuned for more *NCK WiFi* hotspots showing up in the Cunningham service area this summer.
