From iconic Route 66 destinations to the best motorcycle rides, you'll find beautiful *National Geographic* pictures and great information here. Be sure to explore the Top 10 lists (like the top 10 food road trips) and Road Trip Tips.

Short Tutorial/FAQ - How Can I Tell If My Computer Is Dying?

Question: My computer has been giving me problems lately, but I don't want to spend the money on a new one if I don't have to. How do I know when it's time to give up?

Answer: Generally, a computer should last from three to five years, but could last much longer. To be sure it's really time to say goodbye to your trusted technology, look for the following signs...
