

MUST-SEE VIDEOS**WATCH NOW****Dog Takes Itself Sledding**

We're not the only ones who enjoy sledding. This dog pulls the sled up the hill and then joyfully slides back down.

**WATCH NOW****Dancing Mailman**

Pandemic isolation is eased for a little girl when a kind mailman dances with her through the picture window.

NEWS AND VIEWS**CTC -- 2020 Review**

Dear Cunningham Customers,

This year our focus was safety, adaptation, and internet connectivity. Adapting to new procedures to keep our customers and employees safe, adapting to the new needs of our customers, thinking creatively on how best to safely provide services to customers in quarantine, quickly redirecting resources to help our local schools and students adapt to remote learning, adapting to extreme delays on equipment, changing projects and with staffing levels that changed sometimes daily.

I want to commend our crew of employees for stepping up to this year's unique circumstances. Even with the additional challenges we were able to have some great accomplishments such as helping over 100 student families across 7 school districts get connected for remote learning in less than a month and partnering with NCKCN on COVID-19 Emergency Response projects to bring internet connectivity to six unserved rural areas across our four-county region.

As you can imagine, internet usage has skyrocketed and basically jumped two years ahead of what was predicted pre-COVID. We are thankful for all the upgrades we had done in years past so that we could handle this year's surge in stride. It does require us to accelerate future projects as we lost two years of capacity investment and planning in a matter of months! Stay tuned for fiber optic updates coming in the future as we continue to stay out in front of our customers' needs.

We truly appreciate your business and look forward to working with you in 2021.
