Affordable Connectivity Program Offers Internet Discounts

Recertification is Required Every Year

The Federal Communications Commission's Affordable Connectivity Program (ACP) helps connect families and households struggling to afford internet access. It provides a discount of up to \$30 per month toward broadband service for eligible households and up to \$75 per month for households on qualifying Tribal lands. Get more details and eligibility criteria at [AffordableConnectivity.gov](https://www.AffordableConnectivity.gov).

After you have qualified for ACP assistance, **you will be required to recertify your eligibility on an annual basis.** [Click here](#) for information on how this process works and what you need to do to make sure there is no gap in your benefit.
