The Olympic torch is coming to the City of Light. Get ready for beach volleyball at the foot of the Eiffel Tower and more.

NEWS AND VIEWS

Update on Cunningham Fiber Expansion

In 2024 we are continuing the same strong pace of expanding fiber broadband in our region. We haven't slowed down and currently have fiber projects underway in four counties at the same time. We are excited to be able to continue to invest in our communities and expand opportunities for those in our region. It's exciting (and busy) times!

Mitchell County:

Our fiber over-build in the City of Beloit is nearing completion. We are currently connecting residential fiber customers in town wanting our new 1000x1000Mbps internet packages. In rural Beloit, our Capital Project Fund partial grant project is underway. Our contractor has laid fiber south down Highway 14, west of HWY 14 along the Tipton blacktop, west of the airport and is currently working towards Asherville. Our fiber splicing and installation teams are working behind the contractors and contacting potential customers with new Cunningham fiber broadband access.

Republic County:

Good news! We received the Lasting Infrastructure Network & Connectivity grant we had applied last Fall for in Republic County. Our contractors will be starting construction late summer to build over 30 miles of new fiber access in the rural areas

between Concordia, Norway, Rydal, Scandia and Belleville. Stay tuned for more updates as construction starts. Our fiber over-build in the City of Belleville is nearing completion. We are currently connecting residential fiber customers in town wanting our new 1000x1000Mbps internet packages.

Cloud County:

Our Broadband Acceleration Grant Rd2 has been completed and new Cunningham fiber customers are online. We recently applied for a Broadband Acceleration Grant Rd4 to add even more rural fiber broadband connectivity in rural Cloud county. Stay tuned as we should know by late summer if our application is successful. Our fiber over-build in the City of Concordia is nearing completion. We are currently connecting residential fiber customers in town wanting our new 1000x1000Mbps internet packages.

Jewell County:

Construction crews started just after the first of the year on our fiber over-build in the City of Mankato. We expect by summer of 2025 to have fiber availability to everyone in Mankato. Construction on the City of Jewell fiber over-build is set to start this Fall.
