NEWS AND VIEWS

Update/Upgrade to Email Servers and Filtering Coming in December

NCKCN will be updating to new email servers in December to enhance your Internet service. We hope the new service makes managing your email more convenient and manageable. You'll have the same great service for email clients and an updated WebMail Interface. We'll implement new filtering services as well as offering updated Spam and Virus Filtering—included with every NCKCN email account.

As in past years' upgrades, we hope the process will be painless and transparent, but wish to give all our customers a heads-up of what's to come. We're excited about the upgrades and think you will enjoy the fresh new look and capabilities. We'll post more information to come as we get nearer the upgrade time.
